Dear Dr. Satapathy,

Trust this mail finds you well.

I am delighted to inform you that our Editorial Board has approved your work “**Proceedings of the First International Conference on Intelligent Computing and Communication**”. We would now work towards publishing the book under Series “**Advances in Intelligent Systems and Computing**” (<http://www.springer.com/series/11156>).

**We would shortly send our contract over for your signatures (via DOCUSIGN) and would appreciate if you could reconfirm**

- complete name and affiliation of Volume Editors,
- email ID of Volume Editors,
- sequence of editors, and
- the date of submission of manuscript
- the deliverables will be **Electronic Typeset Files** and the charges are **5 Euros per typeset page**

**IMPORTANT NOTE:**

**All accepted papers submitted for publication will be checked with anti-plagiarism software (iThenticate) to check the overlapping/similarity index of the content with already published material.**

**The analysis will be shared with you and the papers with high overlapping index will be either sent for revision or rejected according to the analysis reports.**

**Please note that the process of checking and further revision will delay the publishing process.**

Further we would like to add that your work would be available in an **e-book** format for the benefit of readers across the world. Additionally, we would create/enable **print formats** too.

Look forward to hear from you.

Regards

Aninda

**Aninda Bose**
